Basic Assembly:

Jordan River Moving will handle basic reassembly of furniture items as long as it does not require the use of special tools. Jordan River cannot reassemble trampolines, big toys, cribs and any other child/baby items for liability reasons. We will not install items to the physical structure of your home. This includes shelving units, mounted cabinets and TV mountings. We will not reassemble IKEA furniture, whether it was disassembled by Jordan River or not.

Stairs:

Every 12 steps, or steps between landings, will be considered a flight of stairs.
 Example 1.) 36 steps will be considered 3 flights.
 Example 2.) 15 steps with 3 landings, including the final landing, will be considered 3 flights of stairs.

Shuttle:

There will need to be access for an 18-wheel tractor-trailer (aka semi or 'big rig'). If there is not access for a truck this size there could be additional charges for long carries or shuttle service. Our 18 wheelers carry household goods, which differ from other common semis that are called 'Dry Vans'. Our semis must have ample access to enter so not to cause damage to the vehicle or surrounding property. The truck will need to enter and have the ability to drive through without backing in or backing out of the property. If you request the driver to try to enter, you must acquire a certificate of insurance naming Jordan River Moving as additionally insured.

Redelivery:

If the customer is not available to accept delivery, or if your plans change once your shipment is in route, a redelivery charge will apply. The driver will unload your shipment into a storage facility and your items will stay in storage until you are again ready to receive your shipment. Once you are ready, we will schedule the next available driver to pickup your shipment and deliver your household goods to you. Redelivery is charged \$0.25 per pound, in addition to warehouse handling of \$0.09 per pound and storage of \$0.055 per pound per month (first month of free storage does not apply).
